With its unique exhibits and priceless collections of archaeology, art, cultural history and folklore, the Württemberg State Museum is an incomparable treasure trove: it is home to important testimonials of the cultural heritage of our region.

ANTIQUITY Greek vases, delicate jewellery items, marble busts and colourful mummy portraits give a comprehensive insight into the world of the advanced civilizations of the Mediterranean region.

CELTS Rich early Celtic burials with masterpieces of bronze, iron, silver and gold bear witness to the impressive elite culture of the Iron Age. One of these is the unique Hochdorf “princely grave”.

KUNSTKAMMER Over the years, the collecting passion of the Dukes of Württemberg created a fascinating “treasure chamber” full of imaginative handcrafted articles of astounding virtuosity and amazing exotic treasures.
