in Stuttgart's Old Castle

## Welcome to the Württemberg State Museum!

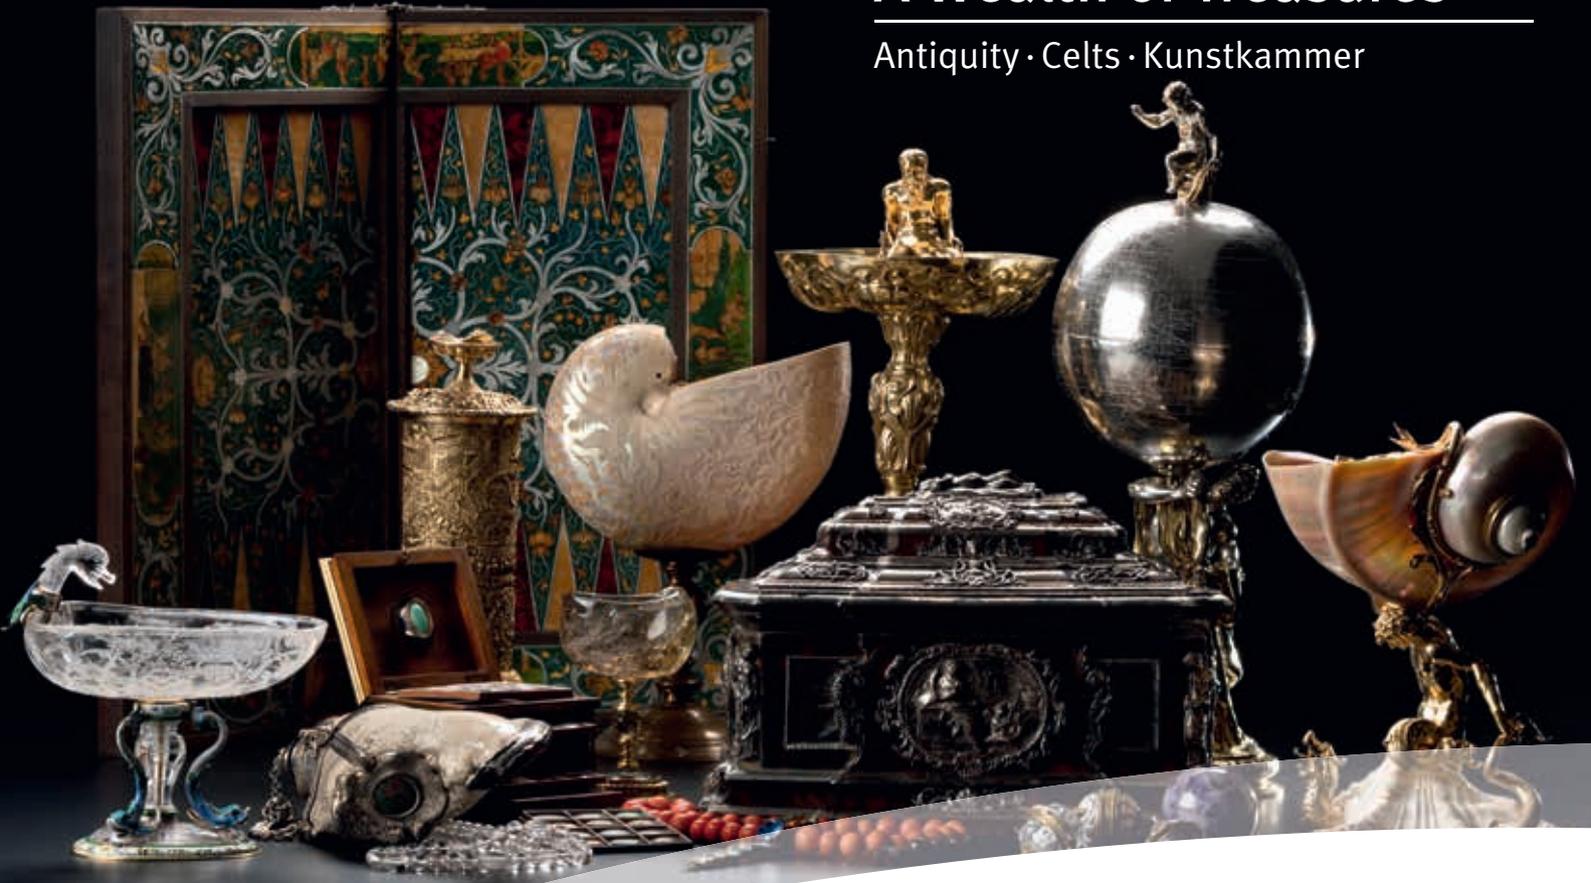

The Old Castle in the heart of Stuttgart is both a place of legend and a place of history. Once upon a time the residence of the Dukes of Württemberg, Baden-Württemberg's largest museum of cultural history now invites you to take a journey through history. With its unique exhibits and priceless collections of archaeology, art, cultural history and folklore, the Württemberg State Museum is an incomparable treasure trove: it is home to important testimonials of the cultural heritage of our region.

### A Wealth of Treasures and Legendary Master Pieces

These two sections of our exhibition will let you discover the special highlights of our collections and feel history coming alive.

# A Wealth of Treasures

Antiquity · Celts · Kunstkammer

**ANTIQUITY** Greek vases, delicate jewellery items, marble busts and colourful mummy portraits give a comprehensive insight into the world of the advanced civilizations of the Mediterranean region.

**CELTS** Rich early Celtic burials with masterpieces of bronze, iron, silver and gold bear witness to the impressive elite culture of the Iron Age. One of these is the unique Hochdorf “princely grave”.

**KUNSTKAMMER** Over the years, the collecting passion of the Dukes of Württemberg created a fascinating “treasure chamber” full of imaginative handcrafted articles of astounding virtuosity and amazing exotic treasures.
